

# 1. Introduction

- *“Do you know Magritte? René Magritte?”*
- Belgian surrealist artist
- *“Static web sites are not so cool.”*
- Show Pier

## 2. Edit Web Site

- Explain Wiki
- **Edit** and add to top: **MODELS 2007, Nashville**
- Explain that we edited the contents of the page

## 3. Edit Environment

- *“Wouldn’t it be great, if we could edit the parts outside the page the same way?”*
- Go to Environment
- Explain Environment (Meta-Environment)
- **Edit**
  - Add to the bottom of the outer <div>:  
**Powered by Magritte**

# 4. Edit Meta

- Go back to Introduction
- *“Wouldn’t it be nice, if we could also change how the edit command works?”*
- Show **Edit** command again
- *“We would like to be able add a text-box with to-do list to the page.”*
- Show **Meta Edit** command
- Select **Memo**, click **Add**
  - Label: **Todo**
- Click **Save**
- Editable, Persistent
- *“We would like to make it searchable too.”*
- **Meta Edit**, **Edit Todo**
  - Show settings
  - Searchable: **True**
- Searchable
