Compiler Construction 2013

Project - part four - Presentations

- Prepare a presentation of your project.

- The presentation should describe the overall implementation with special focus on implemented optimisations and bytecode generation.

- The presentation should take no more than 10 minutes. After, there will be at most 5 minutes for Q and A which will be about details of your implementation.

- The presentation caries no direct effect on the grade.

- The presentations will be held during the lecture on May 24. 2013. Slides are to be sent to cc-staff@iam.unibe.ch by May 24. 2013 at 10:00 o'clock.

- Provide the slides as a pdf file named cc-project-4-name1-name2.pdf e-mailed to cc-staff@iam.unibe.ch. The subject of the e-mail should be cc-project-4-name1-name2. name1 and name2 refer to the names of the team members providing the solution.
