Which of these statement can hold true for the diagram?

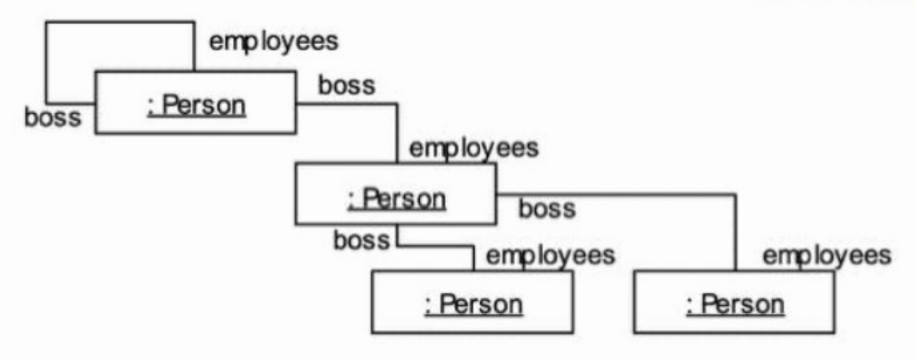

John: Person

You can be your own boss

OK: John is his own boss

Neither a leader nor a follower be Not OK: John doesn't have a boss

Sit at the top of the tree

OK: A Person can be a boss and an employee, so we can build a tree of bosses and employees

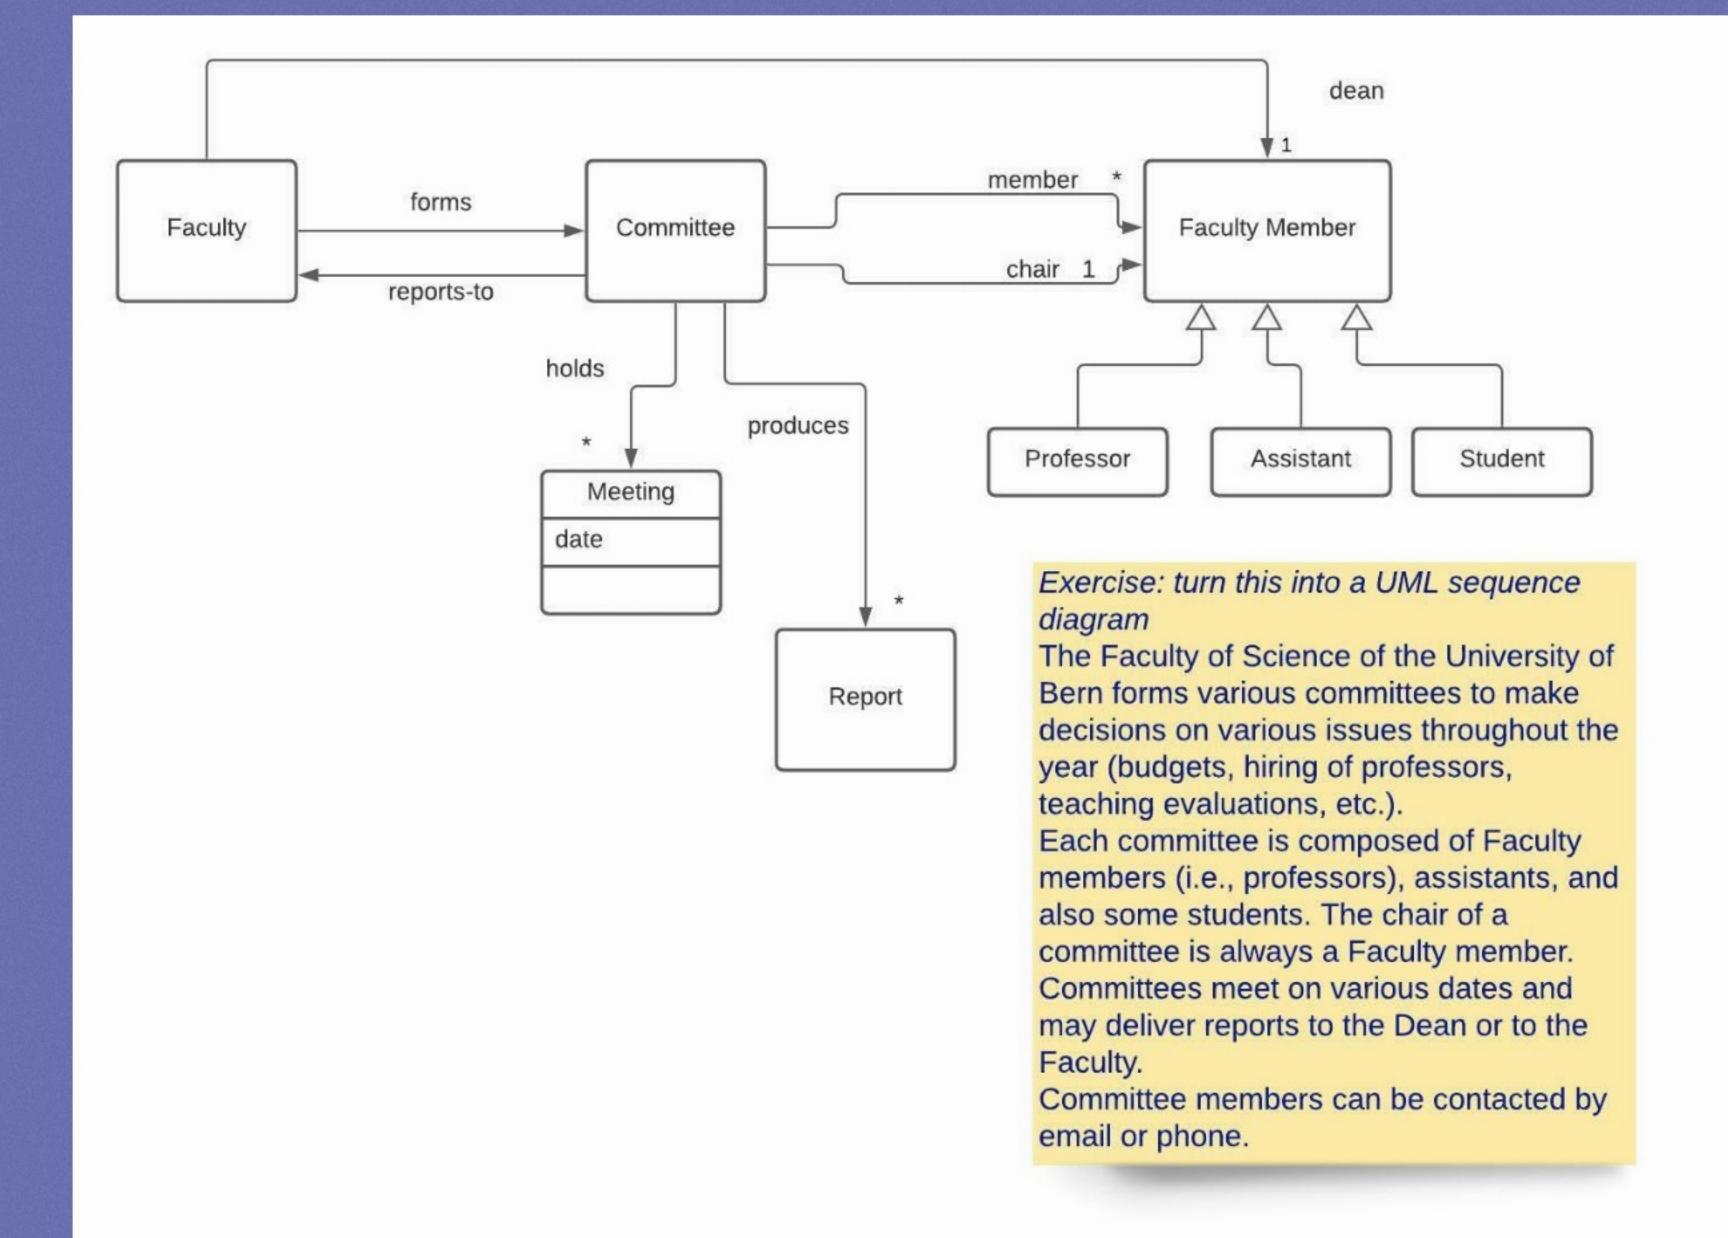

Exercise: turn this into a UML class diagram ...

The Faculty of Science of the University of Bern forms various committees to make decisions on various issues throughout the year (budgets, hiring of professors, teaching evaluations, etc.).

Each committee is composed of Faculty members (i.e., professors), assistants, and also some students. The chair of a committee is always a Faculty member. Committees meet on various dates and may deliver reports to the Dean or to the Faculty.

Committee members can be contacted by email or phone.
