

```
class Point2d {  
    /* The X and Y coordinates of the  
    point--instance variables */  
    private double x = 0.0;  
    private double y = 0.0;  
  
    public Point2d (double px, double py) { //  
Constructor  
        x = px;  
        y = py;  
    }  
}
```
